..... **our philosophy is...**

.....good things need their time.....

As a talk with friends, preparing a healthy meal with fresh ingredients, the production of organic coffee or knowing a region and its people.

With us you can take it slow.

Our community-based tourism puts you in contact with the people of the region like coffee producers and environmentalists.

You stay in the forest on cabins in touch with nature, you can hug trees or sing with the wind and water.

And when it's too quiet you can find monkeys, toucans and other inhabitants of the rainforest. Everything is possible.....

In the "Casa del Café" you stay next to the lakeside promenaded of Catemaco and you can enjoy of a tour in town or just the tropical weather here in Los Tuxtlas.

Our standard is very familiar, personal and with a high level of hygiene and security.

¡Do not expect a "Hilton" Hotel"! Here you are in the countryside and everything is a little more rustic.
